EDUCATION

Higher National Diploma

Software and Web development
Delta State Polytechnic Ogwashi-uku
2024 - 2026

Lower National Diploma

Computer Science
Delta State Polytechnic Ogwashi-uku
2021 - 2023

WAEC

New Hope Academy
2019 - 2020

ABOUT ME

Frontend UI Developer skilled in building clean, modern, and responsive web interfaces using React, Next.js, and Tailwind CSS. I specialize in translating Figma designs into pixel-perfect, high-performance web experiences with reusable UI components, smooth animations, and optimized rendering. Passionate about delivering fast, accessible, and scalable front-end solutions with strong attention to detail and UX consistency.

WORK EXPERIENCE

Freelance

Frontend UI Developer

Remote | 2022 — Present

- Designed and developed responsive web interfaces using React, Next.js, Tailwind CSS, and modern UI libraries.
- Converted Figma designs into pixel-perfect, production-ready UIs.
- Built reusable UI components to improve development speed and consistency.
- Optimized website performance through efficient rendering and best UI practices.
- Collaborated with clients to deliver visually appealing and seamless user experiences.

Freelance

Frontend UI Developer

Remote | 2022 — Present

- Developed landing pages, dashboards, and business websites.
- Ensured mobile-first design, accessibility, and modern UX standards.
- Implemented smooth UI animations and micro-interactions for better user engagement.
- Worked with Git & GitHub for version control and project delivery.

PROJECTS

Responsive Trading Platform

React · TypeScript · Tailwind CSS

- Developed a modern multi-page trading platform with reusable components
- Implemented mobile-first design and smooth page transitions for better UX
- Ensured fast performance and clear navigation structure
- [🔗 Live: Demo](#)

Trading Dashboard (Dark & Light Mode)

Next.js · shadcn/ui · Tailwind CSS

- Built a feature-rich dashboard with theme toggle, cards, tables, and chart sections
- Applied clean component architecture for scalability and maintainability
- Focused on UI/UX consistency and interactive user experience
- [🔗 Live: Demo](#)

Modern Food Delivery Website

Next.js · Tailwind CSS · Figma-to-Code

- Converted a Figma UI into a fully responsive, pixel-accurate website
- Built reusable components and smooth animations for modern user experience
- Optimized layout structure for fast load and clean UI performance
- [🔗 Live: Demo](#)
- [🔗 Figma: Design](#)

SKILLS SUMMARY

UI/UX Interpretation

Ability to translate Figma designs into accurate, interactive web interfaces.

Front-End Architecture

Experience building reusable components and scalable UI structures.

Performance Awareness

Focus on clean rendering, fast load, and smooth UI interaction.

Problem Solving & Debugging

Efficient at identifying and fixing UI/UX bugs and layout issues.

Client Collaboration

Communicate clearly with designers and clients to deliver expected results.
